Prepares 'Antigone' Wednesday Lecture Dr. White Talks About Pharmacy

By Carol Haddox

SEVERAL CBC students had the opportunity on Wednesday afternoon to talk with Dr. Allen White, Dean of the College of Pharmacy, at Washington State University.

Students who are majoring in pharmacy must complete four years of schooling and one year of internship said Dr. White. The year of internship must be completed before the student can become a registered pharmacist.

Any working experience in a pharmacy done after a student has enrolled in college and declared pharmacy as his major is credited toward his 2,080 hours of internship.

Dr. White emphasized the difficulty for students transferring from a junior college to Washington State University because the courses are on a semester basis and are designed to be harder. Also, competition is tougher because a larger, four-year school can be

more selective about which students they admit, he said.

Dr. White reported also that more women are going into pharmacy, especially community pharmacy. Men are going into more hospital pharmacy, including the master's degree program in hospital pharmacy.

PHARMACY is one job in which there is little discrimination between men and women, he said.

The minimum beginning salary for a pharmacist in the Seattle area is \$165 per week and is slightly less in this area.

Pharmacy as a career offers many opportunities other than being a pharmacist, Dr. White reported. Research, graduate work, and drug companies employ a large number of graduates in the field of pharmacy, he said.

Students who are interested in pharmacy should see Mrs. Stappler for further information.

Graduation Applications Available from Office

SOPHOMORES who are enrolled now and are eligible to graduate this spring should contact the Guidance Center within the next week and pick up the graduation application form and by mid-quarter should have Section I completed and returned to the Guidance Center, Mr. Haas said.

Section I is the evaluation of their academic record. The student is then to take this form to his adviser who will help fill it out and then sign it.

The adviser will have a copy of the student's current total hours and schedule that will be used in supplying the information that is called for in this form.

The student should be aware of the courses he may be lacking and must prepare and have time to make them up during spring quarter, said Haas.

IF A student has less than 75 hours he should consider the possibility of attending summer school. People completing requirements in the summer could not participate in spring graduation but the value of having received the two year diploma can not be over emphasized.

When Section I has been completed and signed by the adviser, it is to be returned to Mr. Haas at the Guidance Center where it will be double checked. It will be necessary for the graduating sophomore to return to the Guidance Center and complete Section II not later than the first week in April.

Section II includes the final quarter schedule and will determine whether the student graduates this spring and which degree or certificates he will receive.

CBC Heads To Interview Past Students

MR. DONALD Rippey, CBC president, Mrs. Venetta Stappler, Dean of Women, and Mr. Sig Hansen, Dean of Men, will be on the campus of the UW Thursday, January 31, to interview former CBC students to try to find out any weaknesses in CBC's program.

They will also discuss transfer problems with former CBC students.

Mr. Rippey says: "This will let the students know that we are still interested in them. It will also let us know how well they are doing there."

A general meeting with the faculty members will be held at the UW Friday, February 1, to discuss the problems of transfer students from junior colleges.

In conjunction with this investigative program, Mr. Miller, chairman of business administration, Miss Schilberg, chairman of the math division and Mr. Green, will attend a meeting Saturday, February 2, concerning transfer programs, business administration and engineering.

Special Rooting Section Planned

A ROOTING section will be roped off by the Talons this Friday night at the CBC-Clark game at the Pasco High School Gymnasium.

The middle section on the left side of the gym will be reserved for those who want to show their school spirit. The Talons ask that those who would like to should wear crazy clothes.

CBC-Phillips 66 Tickets on Sale

A BENEFIT basketball game between CBC and the Phillips 66 Oilers, sponsored by the Kennewick Columbia Kiwanis for Youth Activities, will be held at Kennewick Tuesday at 8 p.m. in the Kennewick High School Gym.

Advance sale of student and faculty tickets may be secured at the cashier's booth in the main office. The tickets will cost 50 cents upon display of ASB cards or one dollar at the gate.

The Phillips "66" quintet is rated as one of the best amateur basketball teams in the country.

700 High School Students Tested

WASHINGTON Grade Prediction tests have recently been given by Mr. Haas at Kennewick, Riverview, Pasco, Columbia, Burbank, Prosser, and Kiona-Benton High Schools.

Richland, Connell, Wastucna, and Kahlotus have yet to take the test.

Over 700 high school students will have taken the test battery for attending Washington State colleges and universities in the fall.

A majority of these students indicated CBC as their first choice.

Dance Brings \$40 for 'Dimes'

THE MARCH of Dimes benefit dance held last Friday evening in the CBC student lounge was a big success, according to members of Machine Technology Association,

PLUMB, Sharron Barbara Williams tern adaptation of Greek play "Antigone" Saturday and Sunday 15-17, in the lounge.

Campus Impressions

By Linda Brutzman

AGAIN I HAVE been asked to bring to your attention the rules at CBC concerning card playing in the student lounge. This activity is not to be indulged in until after 12:30 p.m. each afternoon. Apparently respect for this rule is lacking, since at all times of the day one can find a card game in some corner of the lounge.

Linda

Perhaps you would like to know why this rule was originally put into effect. The administration is not so much concerned with the time wasted or bad influence of such pastimes, but more, because the lounge is the only place to meet the public at CBC.

Visitors to CBC are often entertained in the lounge and the impression made by tables of card players is not particularly a good one. In addition, the lounge also doubles as a cafeteria and it is very annoying to buy food and then have no place to sit and eat it — all because too many tables during the busiest hours of the day are taken up by the inconsiderate pinochle fans.

The inadequacy of the student library also forces many students to study in a noisy lounge atmosphere—that is, if they can find a place to sit. The entire matter boils down to this—the unfortunate lack of space. Some new tables and chairs have been ordered for the lounge, but even this will do little to alleviate the crowded situation and their arrival date is not certain.

Please, the "bread and butter" activities of the school must come first, so restrain yourself. Don't play cards until afternoon. You might also take a glance at Mr. Piccoli's new Collegiate column. He's heard rumors . . . You may decide pinochle is not worth the chance.

SINCE YOU are not allowed to play cards or if you are looking for some kind of outdoor recreation, Mr. Hansen reported to me that a recreation fund has been set up as a part of the ASB budget which will support any outdoor activities in which students are interested—badminton, volleyball, high bar—anything within reason. Come springtime, maybe even a few card tables could be set up outside.

If you have an idea see Mr. Hansen, who says he'll be glad to help.

top counseling here . . .

LITTLE ENOUGH is said about the terrific guidance that is given to the student, not only while he is attending CBC, but follows the continuing student to many of the local chapters.

Many problems develop throughout the year as job hunting, class changes, excuse slips, signatures, program schedule, information, and personal problems which if cannot be handled will be sent to competent people.

People responsible for this fine service are Mrs. Stappler, Mr. Haas, and Mr. Hansen. They are generally kept very busy and must put in over-time with the students affairs. They are very interested in the students life and encourage the students to visit them and hash out their problems or matters of concern.

An Apple A Drum A Pencil

By Dave Piccoli

AS MOST of you have noticed in the past few weeks, KEPR radio, once popular as a rock 'n' roll station, has now become a popular jazz station. Such greats as Stan Getz, Lee Armstrong, Gerry Mulligan, Stan Kenton, and the great Hamp (Lionel Hampton), have taken over the air and flooded the Tri-Cities with new and contemporary sounds.

Although the change is a controversial one among the younger set, it at least leaves the way open to the objectivity toward modern jazz. Good luck, KEPR, with your new programming.

★ ★ ★

LAST FRIDAY at 11 a.m., Pasco High School debaters hosted a practice debate with CBC. Gary Starke and Bucky Plumb debated Pasco High's number one team composed of Jim Sisk and Bill Purcell.

The debate was held mainly to give the High School debaters practice in the Oregon style Cross Question Debating that will be used in their next tournament.

The high school debaters proved to be strong competition. They recently returned from Lewiston, Idaho where they took the Sweepstake Trophy. Congratulations to Mrs. Vinson and her debate team.

Attending the practice debate were a number of Columbia Basin and Pasco High students. Distinguished guests at the debate were Columbia Basin's Dean of Men Sig Hansen and CBC President Don Rippey.

★ ★ ★

CBC PINOCHLE fans and enthusiasts are in for quite a surprise in the coming weeks! Reliable sources have started rumors circulating to the effect that any would-be pinochle players, before 12:30 p.m. may have trouble taking notes on lectures while sitting at home. An ace, ten, King, Queen, Jack, may take a run, but if the "king" happens to have white hair — you had better run.

★ ★ ★

NOMINATIONS for winter formal king and queen were held in the student lounge last week. Parliamentary procedure attending this chaotic event would have sent Robert with his rule book rolling in his grave.

Confusion reigned over nominations as students had no idea what was going on or who was being nominated. Things really got out of hand when Maude Fricket was nominated for king.

Thank you freshman class organizers. We appreciate a bit of farce comedy now and then. When do we have the elections? Our philosophy for the week: "You walk up the great hill, then you walk down . . . and you can say, you've walked."

S. A. C. Happenings

IN THE Student Activity Council meeting Tuesday morning members of the council were told that BSU, Chess Club, and Lettermen still have not turned in a list of their officers and advisers to either Sharon Hartley, Sharon Lean, or Mr. Hansen.

The clubs at CBC should remember that they receive money for their budget on the basis of their activities in the school including participation in student government.

The following clubs weren't present at Tuesday's student council meeting: BSU, Chess Club, Freshman Class, Lettermen, Lutheran Club, MSM, Phi Theta Kappa, Ski Club, and Sophomore Class.

There was a long discussion at the meeting concerning school spirit in the pep assemblies, at the games, and even in attending lectures. As a result Talons will mark off a specific area at the games only for students who are willing to back their school and team by showing some spirit and participating actively in cheering.

Also the pep assemblies in the lounge will be centered around the blackboard so all students can see and hear the cheerleaders and songleaders and can participate.

Larry Bird Dies In Car Accident

A SINGLE car accident on January 17 took the life of 20-year-old Larry Bird and critically injured his 18-year-old brother Eldwyn (Don) Bird, both of Grandview.

Eldwyn Bird has been unconscious since January 17 as reported by the St. Elizabeth Hospital in Yakima, Wednesday.

The brothers were enroute to CBC where they were enrolled, said investigating officer State Patrolman W. W. Wilson.

Larry Bird graduated from Grandview High School in 1980; enrolled at CBC in Engineering Technology in the fall. Larry dropped out of CBC for a year and accepted a job with the Tectronics Company at Portland, Oregon.

He then re-enrolled at CBC this fall with a leave of absence from his company.

"He returned to CBC to increase his knowledge in mathematics, industrial physics, and design," said Mr. James Brooder, instructor of engineering technology.

Funeral services were held Monday at Sunnyside Cemetery. Larry was survived by his parents Mr. and Mrs. Paul Bird and his brother, Don.

A token of sympathy was sent by CBC and the Engineering Technology Department.

SHORT STUFF

By Sam Martinez

RECENTLY the fastest rising basketball player in the area is 5' 10" Jerry Skaife. Jerry hails from John Day, Oregon where he was All-Conference first team.

His first time this mighty mite appeared wearing the CBC jersey in the last minute and a half of the Everett game. The Hawks were behind by one point at that time.

His first play was stealing the ball and going for a layup in the last minute of play he repeatedly stole the ball, and won the ball game for CBC.

WSU Frosh he was able to break loose enough to score for 25 points. Whoever said that basketball was just for the big men will definitely change their outlook after the backcourt aces from CBC.

COACH Jim Rodgers had this to say about his new star: "He was like a shot of adrenalin."

That the Hawks have finally realized that in order to win games and stay in contention, they will have to play hard in order to make up for their lack of height. The team turned over a new leaf, as has been proven, by winning three games.

Credits their success to the improvement of several players. He said:

Factors were involved in this recent change. Improved play by Larry McIntyre, a product of Prosser, the consistent superior performances from Bob Stromer and Bob Antulov, and certainly the performance of Skaife.

The boys continue to improve the way they have, we can be serious contenders for the Championship. We did after knocking off Everett and Highline last week."

FOR THE GAME tonight with Clark, Rodgers expects a tough one.

Clark has always had a tough ball club. We've played several years in a row in Championship play-offs and twice beaten them," said Rodgers.

As we are talking basketball, I would like to congratulate Coach Rodgers for his recent nomination as Inland Empire Coach of the Year.

Proud and happy coach at CBC is Brent Wooten. He and his wrestling team came back from a recent loss in Oregon with eight boys placing.

Gehrmann continued his domination of the heavyweight division as he took first place along with Rich Birch, Norm Keller. Second place winners were Bob Antulov and Ron Ross. Ron lost his last match by one point in the Small College Champion.

Nord and Curt Byrnes were third place winners. Perhaps the strongest team ever assembled at CBC.

AROUND THE CONFERENCE . . . Last weekend was full of surprises. You might even say upsets. The best surprise was Hawkville is concerned, was the knocking off of the unbeaten ranks by Centralia Junior College.

Everett jumped back from a 79-58 defeat at the hands of the up-and-coming CBC Hawks to take a 52-45 decision over Frank Mataya's Knights from Wenatchee JC . . . The Hawks and the EJC Trojans are still the strong contenders to take the Washington State Junior College Championship.

Despite losses over the weekend. They might, however, encounter some difficulty with the CBC Hawks as the Hawks are making a strong bid to keep the crown for the third year.

CBC has made it three in a row after dropping to Yakima and a close one that was decided in the last minutes of play to the Cardinals . . . If you saw the Hawks against Everett you will agree that the Hawks are improving and will be hard to stop, especially at the new addition to the Conference, Highline Thunderbirds.

The Thunderbirds are 2-2 in the conference, dropping one to the Trojans and the last one to the Cardinals. The Yakima Valley Indians and the Knights are to get out of the cellar. They both sport a 1-4 conference action.

Basketball Stardom's Not New to Ballantyne

By Sam Martinez

Basketball stardom for the 5' 10" maple court magician, Tom Ballantyne, is not new to him. While at Twin Falls High School in Idaho he set a few records that will take a long time to equal.

Tommy broke the Southern Idaho State Conference scoring record by stuffing in 264 points in 12 games during the '59-'60 season. He also set an all-time Twin Falls scoring record with 500 points.

During his senior year he was selected as an All-Conference, All-State guard. Tommy was also mentioned in the All-American team.

Tom, however, is not new in this area. While playing Frosh ball for the University of Idaho their only defeat of the season was at the hands of CBC.

"We had a tremendous team that year," relates Ballantyne. "As a matter of fact," he added, "two of those boys are starting on the varsity team this year."

When asked what CBC's chances are of taking the championship this year, he said:

"Since Skagit Valley lost that game to Centralia last week, it gives us a chance to take it. I was beginning to think they were unbeatable."

"If we keep playing like we did last week, especially against Everett, we will undoubtedly win it," Tom added.

He had this to say about comparing this year's team with the past championship teams:

"They certainly had more height but I doubt if they had the hustle and speed that we have this year."

Matmen Take Four Firsts At Invitational

By Dave Piccoli

COLUMBIA Basin wrestlers have left their mark on several four year schools in the past week. At the Eastern Oregon invitational, held at EOC, the local mat men won four firsts, two seconds, and two third places.

Scoring was on an individual basis and no school totals were kept. Oregon College of Education, Lewis and Clark, Eastern Oregon College, and Columbia Basin attended the meet.

CBC first place winners included: Rich Birch at 137 pounds, Jim Shook at 147, Norm Keller at 157, and Heavyweight Larry Gehrmann. Gehrmann, has five straight pins to his record and one decision gained at Eastern Oregon.

Ron Davidson, at 177, and Ron Ross at 130 pounds, both captured second place wins. Third place winners were Curt Byrnes and Dave Nord.

Wooten was quoted as saying:

"The kids looked real well over the four year schools. I wasn't surprised at the first places we took, but the matches were tough and I'm proud of the boys."

Tonight Columbia Basin will meet Eastern Oregon at a match in La Grande.

"This could prove to be the toughest match we have had all year as a team. Eastern Oregon netted three wins at the invitational and they will be out for more," remarked Wooten.

Saturday, Yakima will host a match at Yakima.

Thunderbirds Bow to Hawks

COACH Rodgers' Hawks winged their way over the Highline J. C. Thunderbirds last Friday night by beating them 79-58.

The show got under way with CBC hitting a quick six points before Highline came on to score.

Bob Antulov, Tom Ballantyne, Bob Stromer, Ed Stoner, and Larry McIntyre took over the first half of the game to push the half-time lead to 38-22. Antulov managed to sink 20 of his 26 points in this first half.

In the second half, CBC gained their largest lead by making the score read 57 for the Hawks, while Highline made only 30 points with 13:06 left to be played.

Highline played hard in the finishing minutes but the Hawks allowed them only to cut the lead to 21 points as the game ended.

Highline produced Gregg Wilson as high point man for the Thunderbirds, CBC high scoring honors went to Antulov with 26.

Hawks Wallop Coubabes 79-58

JERRY SKAIFE, the newly discovered basketball ace, combined forces with Bob Stromer, and Bob Antulov to down the Coubabes of WSU in Pullman by a score of 79-58.

Skaife, a former prepster from Spokane hit nine out of 11 from the field and seven out of eight free throws for a total of 25 points to help put the Hawks record to 10-4 for the present.

The Hawks took an early lead by bounding out to a 9-0 start in the first four and one-half minutes. The score was tied three times following as the Coubabes came up strong.

As half-time developed, the score read 40-36 for the Hawks, only a four point lead for CBC.

ANTULOV scored to move the Hawks out of a 43-all and 45-all ties in the second half, then Skaife shot the Hawks out of a 46-all tie with an amazing performance.

With 3:55 left Skaife fouled out, but WSU failed to score in the last three minutes leaving CBC with the victory after a fine game.

At U. of Washington Scholarships Available For Top JC Students

By Carol Haddox

FELLOW STUDENTS!

Are you planning to attend the University of Washington next year? If so, those who have at least a 3.00 grade point average should consider applying for a scholarship to the University.

There are scholarships available for outstanding students who transfer from junior colleges and community colleges within the state. Any student with proper grades, who will enter the University of Washington in the fall quarter of 1963 and who has completed at least one full academic year at a junior college prior to transfer is eligible to apply.

Scholarship applications are granted mainly on the basis of academic excellence, faculty recommendations, and participation in extra-curricular school and community activities.

Each scholarship application should be accompanied by a transcript of your college record. The two confidential reports which are required at each application should be attached to the application. However, the reports may be sent in separately.

ALL APPLICATION material should be forwarded before March 15, 1963, said Mrs. Stappler.

It should be emphasized that scholarships are not applications for admission to the University. Application for admission is made on a separate form which is sent to the Registrar.

All grants and loans administered by the University, with the exception of those reserved for freshmen, require the recipient to have completed at one quarter in residence at the University of Washington and are thus based in successfully completed work.

OTHER information about UW scholarships includes:

Many academic departments give grants that are available only to students registered in that department.

Loans are available to students from students, alumni, organizations, and friends of the university and are made in accordance with conditions set forth by donors and rules and regulations of the various administering organizations.

For long term loans there are definite specifications. The student must have serious financial need, be enrolled full time, must have completed one quarter in residence and maintained at least a 2.00 grade average.

The student must apply in person through interview with the counselor in the office of Dean of Students. These long term loans are granted only for school-related expenses and the maximum amount that may be borrowed is \$300

The interest rate is 4%. The loan must be paid within 18 months. The processing takes about two weeks.

Emergency loans of small sums for tuition, school-related expenses, and emergency personal situations may be borrowed for periods of up to one month. The maximum amount that can be owed at any one time is \$100. There is a service charge of 75c. These loans can usually be arranged in one interview.

Students who are willing to put in work to keep up their grades, have a genuine need for a scholarship, and do part time work should be able to complete their education, said Mrs. Stappler.

Addresses Needed

THE REGISTRAR'S office asks that all students who have changed addresses or were unable to furnish addresses at registration, should give their address to the Registrar as soon as possible.

"It is very important for the interest of both school and the students that the local address be on file in the office," said Mr. Moodhe, Bursar.

Intramural Sports Played Monday Nights

THE INTRAMURAL sports program for the winter quarter got under way last Monday evening at the CBC gym.

Volleyball and badminton are the two sports being offered.

All interested men are encouraged to come out on Monday evenings at 7 p.m., said Coach Dwight Pool.

Rippey, Stappler Attend Confab

THE PRESIDENT of CBC, Mr. Donald Rippey, and Mrs. Stappler, Dean of Women, attended a meeting of the Washington Association of Colleges at the UW Wednesday and Thursday of this week.

The meeting, according to Mr. Rippey, included discussion of the mutual problems of junior colleges and four year institutions.
